

PROJECT ASSIGNMENT 2

# Group10-PA2 Weekly Report

*Verified artifact status and missing team-process evidence*

## FIFA.com and Chess.com

|               |                                                                                                              |
|---------------|--------------------------------------------------------------------------------------------------------------|
| Course        | CSC13112 - UI/UX Design, FIT-HCMUS                                                                           |
| Group         | Group10                                                                                                      |
| Team          | Le Minh (21127645); Nguyen Vu Bach (21127224);<br>Pham Nguyen Gia Bao (20127119); Trang Minh Nhut (22127318) |
| Evidence date | Local evidence audited through 30 July 2026                                                                  |
| Document type | Evidence-based redesign report                                                                               |
| Status        | INCOMPLETE - verified PA2 meeting, attendance, and ownership records are absent                              |

## 1. Evidence status

**Evidence blocker:** No verified PA2 sprint dates, meeting schedule, attendance, objectives/minutes, per-member completed/current/next tasks, assigned actions, or ownership record was found. File existence is not used to infer who performed work.

**Package objective:** Maintain six evidence-traceable reports with two provisional tough problems, three alternatives per problem, and twelve distinct user-goal use cases.

| Field                                  | Verified status                                                                                                       |
|----------------------------------------|-----------------------------------------------------------------------------------------------------------------------|
| Sprint dates                           | Not available - evidence blocker. Capture/build timestamps are not sprint dates.                                      |
| Meeting schedule and objectives        | Not available - evidence blocker.                                                                                     |
| Attendance and minutes                 | Not available - evidence blocker.                                                                                     |
| Per-member completed/current/next work | Not available - evidence blocker.                                                                                     |
| Official template                      | The assignment-linked template is not present locally and was not fetched because browser/network use was prohibited. |

## 2. Team roster

| Member              | Student ID | PA2 completion ownership               |
|---------------------|------------|----------------------------------------|
| Le Minh             | 21127645   | Not verified; planned assignment only. |
| Nguyen Vu Bach      | 21127224   | Not verified; planned assignment only. |
| Pham Nguyen Gia Bao | 20127119   | Not verified; planned assignment only. |
| Trang Minh Nhut     | 22127318   | Not verified; planned assignment only. |

## 3. Member task status

| Member          | Completed      | Current        | Next                            | Blocker                    |
|-----------------|----------------|----------------|---------------------------------|----------------------------|
| Le Minh         | Not verifiable | Not verifiable | Not assignable without evidence | No PA2 task/meeting record |
| Nguyen Vu Bach  | Not verifiable | Not verifiable | Not assignable without evidence | No PA2 task/meeting record |
| Pham Nguyen Gia | Not verifiable | Not verifiable | Not assignable                  | No PA2 task/meeting        |

| Member          | Completed      | Current        | Next                            | Blocker                    |
|-----------------|----------------|----------------|---------------------------------|----------------------------|
| Bao             |                |                | without evidence                | record                     |
| Trang Minh Nhut | Not verifiable | Not verifiable | Not assignable without evidence | No PA2 task/meeting record |

#### 4. Verified workspace artifacts (ownership not inferred)

| Artifact / activity              | Evidence                                        | Status                                 |
|----------------------------------|-------------------------------------------------|----------------------------------------|
| Source and filesystem audit      | tmp/source-audit/audit.json; file-inventory.csv | Verified artifact                      |
| Evidence index and validation    | evidence-index.csv; evidence-validation.md      | Verified artifact                      |
| Traceability matrix              | traceability-matrix.csv                         | Verified artifact                      |
| Six editable report sources      | source/Group10-PA2-*.docx                       | Present; owner unverified              |
| Generated diagrams and crops     | generated-diagrams/*.png/*.svg                  | Present; owner unverified              |
| PDF export and QA                | final/*.pdf and tmp/qa/qa-results.json          | Checked by the final package QA        |
| Peer-review feedback integration | No PA2 feedback source found                    | Blocked by missing external evidence   |
| Group brainstorming record       | No session/board/vote source found              | Blocked by missing real group evidence |

#### 5. Issues, obstacles, and assigned actions

| Issue                              | Impact                                                              | Assigned action                                                                            | Owner/status           |
|------------------------------------|---------------------------------------------------------------------|--------------------------------------------------------------------------------------------|------------------------|
| No external user research          | Personas and findings remain provisional.                           | Conduct interviews or direct observation and update UserResearch.                          | Unassigned; open       |
| No real group brainstorming record | Requirement 2 remains incomplete.                                   | Supply session metadata, real board export, notes, votes/consensus, decisions, and owners. | Unassigned; open       |
| No PA2 peer feedback               | PeerReview remains incomplete.                                      | Capture real lecture feedback and revision evidence.                                       | Presenting team; open  |
| No PA2 meetings/attendance         | Weekly ownership and attendance cannot be verified.                 | Add real meeting minutes or task tracker export.                                           | Team coordinator; open |
| Evidence template absent           | Cannot validate entries intended for PA2_REAL_EVIDENCE_TEMPLATE.md. | Supply the completed template and linked artifacts.                                        | Unassigned; open       |

| Issue                           | Impact                      | Assigned action                              | Owner/status           |
|---------------------------------|-----------------------------|----------------------------------------------|------------------------|
| Misleading screenshot filenames | Risk of unsupported claims. | Use evidence index and excluded-state rules. | Package QA; controlled |

## 6. Evidence-governance decisions

- Keep PA1 canonical persona and drawback IDs, but convert PA2 personas to provisional role-based profiles.
- Keep TP-FIFA and TP-CHESS as provisional evidence-driven selections; do not call them group-voted.
- Restrict chess-53 because visible pixels do not unambiguously show the named ad panel.
- Treat every proposed outcome as a hypothesis or PA3 design goal.
- No post-presentation changes are reported because verified PA2 feedback is absent.

## 7. Package checklist

| Item                                                           | Status                                    |
|----------------------------------------------------------------|-------------------------------------------|
| Six exact PDF filenames                                        | Pass in final package QA                  |
| Group10 identifier and four student IDs                        | Pass in generated reports                 |
| Three alternatives per tough problem                           | Pass                                      |
| Twelve distinct user-goal use case specifications              | Pass                                      |
| Embedded screenshots, crops, UML, screen maps, and flow models | Pass in rendered sources                  |
| Selectable PDF text and page/render QA                         | Pass in final package QA                  |
| Peer review evidence                                           | Missing; report remains incomplete        |
| Group brainstorming evidence                                   | Missing; User Analysis remains incomplete |
| Weekly meeting/attendance/ownership evidence                   | Missing; report remains incomplete        |
| ZIP contains only six PDFs                                     | Pass in final package QA                  |
