

GroupID-PA1 Weekly Report

Sprint objective

Produce PA1 reports for FIFA.com and Chess.com with visual screenshot evidence and HCI analysis, then package four submission-ready PDFs in GroupID-PA1.zip.

Role model

If the team size is four, merge QA with Coordinator. This package keeps all five roles because five placeholder team members are present.

Member	Role	Responsibility
Member1	Coordinator	Scope lock, source protocol, final QA
Member2	FIFA research lead	FIFA sources, personas, use cases
Member3	Chess.com research lead	Chess.com sources, personas, use cases
Member4	HCI and solutions lead	Findings, drawbacks, solution design
Member5	QA and packaging lead	PDF regeneration, text scan, zip validation

Meeting records

Meeting	Attendance	Decisions	Actions
Sprint planning	All five members	Objective locked: produce four submission-ready PA1 PDFs plus GroupID-PA1.zip for FIFA web and Chess.com web.	Use official sources first; use F- and C-prefix IDs; regenerate PDFs from source.
Weekly scrum 1	All five members	FIFA and Chess.com source coverage accepted; personas and use cases in progress.	Resolve FIFA client-side source sparsity by citing official navigation and media-release pages.
Weekly scrum 2	All five members	Findings, drawbacks, and solution mappings accepted for final drafting.	Run citation pass, PDF extraction, old-term scan, and zip validation.
Sprint review	All five members	Four PDFs and final zip reviewed against acceptance criteria.	Manual placeholders remain for GroupID, member names, and peer reviewer names.
